Measuring and Cutting (If Necessary)

Measure your door to ensure the sticker will fit perfectly. If your door sticker is larger than the door, you can trim the excess material after application. However, for precise alignment, it's helpful to mark where you'll need to trim before you start.

Applying the Door Sticker

Peel a small section of the backing paper away at the top of the sticker. Align the sticker with the top of the door, then press it into place. Once the sticker is in place, use a sharp knife to trim any excess material around the edges or around the hardware holes. Reattach the door hardware. Go over the sticker once more with a squeegee or cloth to ensure it's fully adhered and smooth.
